

TECHNIKON

We are an independent, privately owned research company in Villach, Austria which provides research services and technology based consultancy to high-tech companies across Europe.

Audio Engineer/Sound Designer (m/f)

Are you a music enthusiast? Do you love to create, record, mix, and sweeten sounds for videos and podcasts?

If yes: write us!

Your Profile

- You have solid knowledge in audio recording and mastering tools
- You are familiar with the Adobe Audition
- You have work experience in the field of radio/video production
- You are interested in new trends and love innovation
- You have a good ear for sound and love creating jingles
- You are able to start recording and mastering independently
- You are communicative and highly proficient in English

Your typical working day

- Record, clean, sweeten, and mix sound for video and podcast
- Studio and mobile recording, including equipment service
- Work solo, but also collaborate with the rest of the media team
- Coordination of specific tasks, between the project management team, the project partners and the media department

We offer you

- Flexible, project-oriented job in a dynamic team, in our office in Villach
- Possibility to advance in your career within the company, by active participation and self-responsible conduct
- Participation in innovative European research projects
- Part-time position
- We comply the Austrian collective agreement for technical offices and offer a salary that is compliant with the market (Overpayment with appropriate experience)
