WITEC UK

Women in STEM: Bridging the Gap Webinar

On Friday 27th November 2020, Inova Consultancy held a spectacular online event as part of the EU funded FemSTEM Coaching: Recruitment, Retention, Progression project.

In this insightful webinar, Inova brought together 3 amazing guest speakers to share their insights, experiences and tips of being a woman working in STEM.

The webinar ran was thoroughly enjoyed by those who attended, inspiring the next generation of women into STEM!

WITEC ITALY

#February11: Women & Girls in Science for Socio-Economic Sustainable Development

WiTEC Italy, University of Bologna, contributed to the groundbreaking 1st publication in an annual series from the Royal Academy of Science International Trust.

Examining challenges such as the shortfall of female leadership and focusing on the importance of women and girls in science, this volume asserts that we must radically reframe the current policy approaches.

It concludes that we will not succeed in meeting our global challenges without women and girls being active and integrated within these fields alongside equal opportunities at every level.

WITEC NETHERLANDS

International Researchers network-
'Gender and stem' 2020

WiTEC Netherlands, VHTO, is the coordinator of the international researchers network, 'Gender and STEM'. In 2021 the deferred 2020-conference will take place in Australia. The 2021 Network conference will bring together researchers, educators, policymakers, industry representatives and the public to interrogate person-in-context influences towards, or away from, diverse STEM pathways across stages and settings.

What are the needs for a STEM workforce of 2030? New, interdisciplinary drivers are transforming work and education policy and practice in response to social and environmental challenges and technological advancement. What is the role of STEM for the new work order, and how can we engage and prepare all young people including girls and women?

WITEC AUSTRIA

Luana Fabrete de Almeida

<https://vimeo.com/487213294/62caeb3098>

Luana from Brazil works as an intern at TECHNIKON, the host of WiTEC in Austria. She was recently awarded the OeAD scholarship for two semesters of exchange studies at the Carinthia University of Applied Sciences (CUAS).

Technikon is looking forward to being at the forefront of the next European funding scheme 'Horizon Europe' commencing in 2021. Click on the link above to see Luana in this short video!

"...learning is done in a practical way, bringing cases and contact with companies so that we can learn in a real way the day-to-day of an international manager..." - Luana, Press Release, Carinthian University of Applied Science.
