

TECHNIKON

Technikon Forschungsgesellschaft is a collaborative, innovative, internationally active company based in the city centre of Villach that specializes in international research services. A key to the company's long-standing success lies in recognizing strengths and promoting individual potential and internationality.

Digital Media Designer Full-Time / Part-Time

We are looking for a talented and versatile Digital Media Designer to join our team on a full-time or part-time basis. The ideal candidate will be responsible for creating digital design content across various platforms, including graphic design, video production, animation design, and social media content creation. This position requires an individual with good English skills.

Interested? Write us!

Responsibilities

- Develop engaging visual content for websites, prints, project promotions, and social media channels.
- Collaborate with project management & design teams to conceptualize, create, and execute impactful designs.
- Create high-quality videos, animations, and various multimedia assets that align with the unique vision and messaging of each project.
- Stay up to date with industry trends and best practices in graphic design, video production, animation design, and social media content creation.
- Edit and optimize digital content for various platforms to ensure consistency and effectiveness across all channels.
- Effectively extract and summarize crucial technical information and translate these insights into visually compelling designs.
- Contribute ideas and insights that help drive innovation in our digital design strategies, especially within the high-tech industry.

Requirements

- Training or degrees in the field of visual design, media design, visual communication or a similar field.
- Very good English language skills.
- Experience in the media industry or in the field of media production is a plus.
- Good knowledge in design software and tools (e.g. Adobe Creative Suite, esp: InDesign, Illustrator, After Effects, etc)
- Organizational skills and the ability to work on several tasks simultaneously.
- Ability to work in a team and good communication skills.
- High attention to detail and accuracy.

We offer

- **Creative Freedom:** Express your creativity and think outside the box in your visual designs.
- **Exciting and Diverse Tasks:** Engage in a variety of tasks that keep your job interesting and never monotonous.
- **Young & Friendly Team:** Work with a supportive and dynamic group of colleagues.
- **Professional Growth:** Further develop and advance your professional skills.
- **Partly working from Home:** Enjoy the flexibility of working partly from home.
- **Flexible Working Hours:** Choose working hours that best fit your lifestyle.
- **Family-Friendly Environment:** Benefit from a family-oriented workplace that understands the importance of work-life balance.
- **Basic salary according to our collective agreement - Kollektivvertrag Information und Consulting, Angestellte, 1.1.2024 - WKO.** An overpayment depending on qualifications and experience is possible.
